A WORD ABOUT THESE RECORDS

The records which follow are a faithful copy of the original and are as free from error as circumstances allow. Cases of illegibility or uncertainty are copied with brackets (____) to show that the letter(s) or date(s) enclosed by those brackets are questionable. Apparent errors in spelling or dates were copied as found and interpretation is left to the reader.

The Index: In indexing, an attempt was made to merge surnames only if the divergent spelling was clearly the same name when pronounced, or if sufficient evidence was present to indicate that two widely different spellings must be the same name because of the spouse. The surname will be found listed under the most modern spelling or the spelling that accured most frequently in the record. Wives will not be found in the index if their surname is the same as the husband's surname for that item.
